Carbon Hookless Clincher

DISC BRAKE ALLROAD WHEELSET

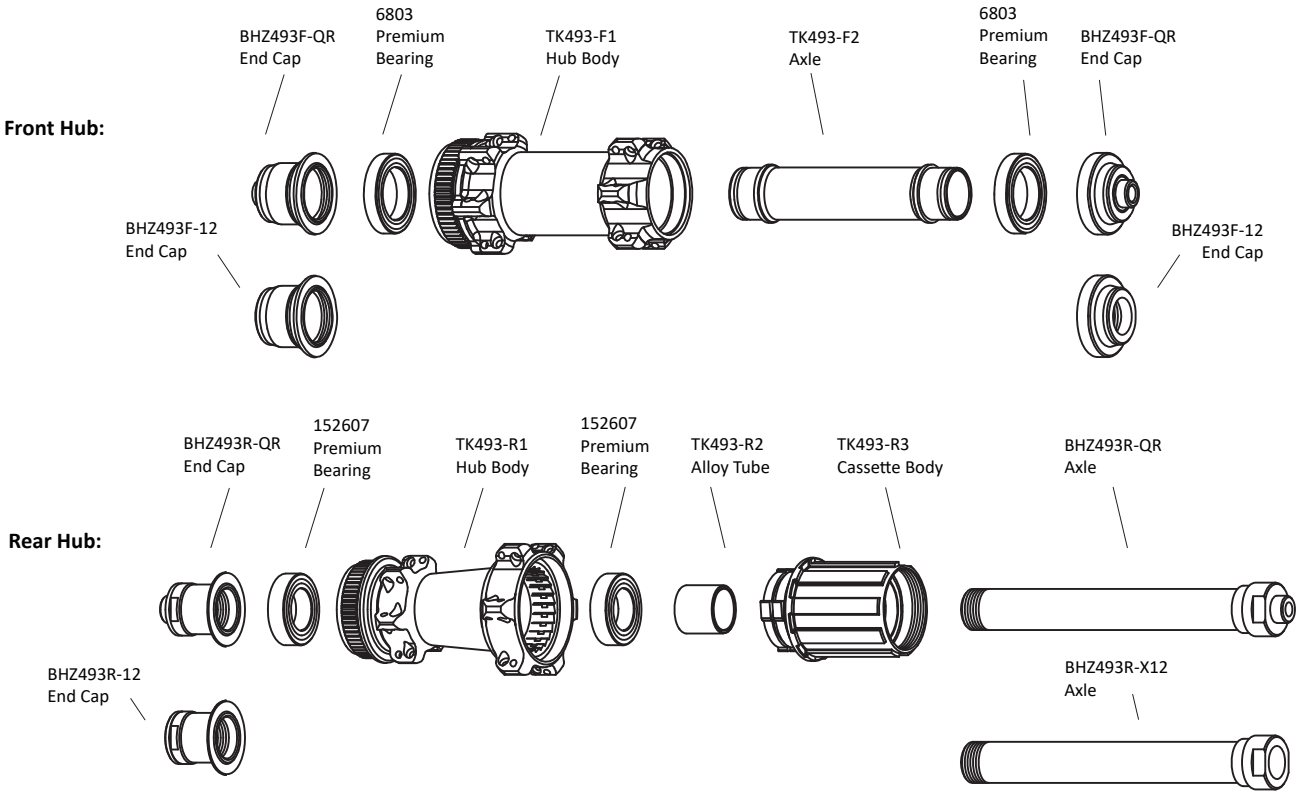

SPECIFICATION

RIM				HUB	SPOKE / NIPPLE	CASSETTE COMPATIBILITY	WHEEL MAXIMUM
Profile Depth	Internal Width	External Max Width	Recom'ed Tyre Size	D1 Hubset F-24H R-24H PREMIUM Bearing	Pillar WING Black Spoke Alloy External Black Nipple	Shimano HG SRAM XDR Campy	Inflation Pressure **72**psi (all sizes,with or without tube) Rider Weight 100kg
33mm	25.3mm	31.1mm	700x30c and Above				

WARNING

1. Over tensioning spokes and exceeding maximum inflation pressure could cause unseen damage. Note that overly inflated tyres don't necessarily have lower rolling resistance, and may have inferior traction!
2. Mounting clincher tyres on tubeless-ready rims could take more effort than on regular rims. Take great care not to damage any part of the rim with tyre lever! Applying mild soap water or tyre sealant on rim and tyre bead could make tyre installation easier.
3. Make sure your tyre-and-wheel combination meets ISO 4210-6 Safety Requirement regulation - there should always be a clearance no less than 4mm between the tyre and the frame, as well as other components such as brake caliper.
4. Failure to follow the conditions listed above may result in 3-year warranty being voided. Contact your local dealer or see the TOKEN website for details. –www.tokenproducts.com-
